

# TUBERCULOSIS SURVEILLANCE FOR VOLUNTEERS

## SCREENING QUESTIONNAIRE

**Have you spent three (3) months or more during the past five (5) years in a First Nation community or a country outside of Canada or the United States?**

(applies to people who have either immigrated from, and/or visited these areas)

YES \_\_\_\_\_ If Yes, Place of Visit \_\_\_\_\_

NO \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**If answer is NO** - No further action required

**If answer is YES** - First determine if this is an area with a high prevalence of tuberculosis by referring to the Ottawa Public Health TB Surveillance List, or by contacting Ottawa Public Health – Communicable Disease Control 724-4224.

If IT IS NOT an area with high prevalence – no further action required

If IT IS an area with high prevalence and <35 years of age: 1-Step Mantoux Tuberculin Test

If IT IS an area with high prevalence and >35 years of age: 2-Step Mantoux Tuberculin Test

Note - If TB testing is required, documentation of Tuberculin Testing within the past 12 months will suffice.

Adapted from Tuberculosis Surveillance for Volunteers in Hospitals and Other Health Care Facilities (2002). Ottawa Public Health

Mantoux testing is necessary for people who have lived or travelled in these countries / territories:
